DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest a stage apparatus / method with a control means for determining directions of an electric current to be applied to exciting coils to reduce a leak magnetic field around a stage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Maki, et al. (US 2004/0150269) and Joong, et al. (US 6,548,920) each disclose a linear motor system in which the leak magnetic field is reduced.
